

QGIS Application - Bug report #18672

QGIS Crashing when Importing DEM data

2018-04-09 05:09 PM - Vincent Racine

Status: Closed	
Priority: High	
Assignee:	
Category: 3D	
Affected QGIS version: 3.0.0	Regression?: No
Operating System: Microsoft	Easy fix?: No
Pull Request or Patch supplied: No	Resolution: not reproducible
Crashes QGIS or corrupts data: Yes	Copied to github as #: 26560
Description	
<p>Good morning,</p> <p>I am trying to import DEM data and QGIS keeps on crashing every time I place "Disc Image File", which seems to be the only data it reads (doesn't read .ige, .rrd, or .rde). My goal is to create a 3D model with the 3D model view based on DEM terrain data.</p> <p>Please let me know if you have any solutions, Vincent</p>	

History

#1 - 2018-04-09 09:23 PM - Nyal Dawson

- Status changed from Open to Feedback

You'll need to provide a link to the data

#2 - 2018-08-16 03:20 PM - Giovanni Manghi

- Resolution changed from fixed/implemented to not reproducible

- Status changed from Feedback to Closed

Closing for lack of feedback.
