

QGIS Application - Bug report #18725

Rotated vector grid lost in QGIS 2.18

2018-04-15 11:27 AM - Andre Joost

Status: Closed	
Priority: Normal	
Assignee:	
Category: Processing/QGIS	
Affected QGIS version: 2.18.17	Regression?: Yes
Operating System: Windows and Linux	Easy fix?: Yes
Pull Request or Patch supplied:	Resolution: no timely feedback
Crashes QGIS or corrupts data:	Copied to github as #: 26612

Description

In QGIS 2.14, the ftools plugin provided the ability to create a rotated vector grid.

This option was not moved to the processing plugin functionality.

One reason might be that older versions of ftools (like that used in QGIS 2.8) did not have that rotation support either.

For a possible usecase, see

<https://gis.stackexchange.com/questions/258912/how-to-create-a-grid-inside-a-polygon-that-is-oriented-with-the-longest-side>
