<b>Crashes QGIS or corrupts data:</b>	No	<b>Copied to github as #:</b> 26696
<b>Description</b>		
<p>Right-click over panels or View --&gt; Panels show that the Layer Styling panel can be enabled using Ctrl+3 shortcut</p> <p>From the layers panel, it can be enabled using F7</p> <p>It could be nice to just keep one, for consistency and free a shortcut that can be used elsewhere...</p>
