Status: Closed	
Priority: Low	
Assignee: nobody -	
Category: Data Provider	
Affected QGIS version:	Regression?: No
Operating System: All	Easy fix?: No
Pull Request or Patch supplied:	Resolution: fixed
Crashes QGIS or corrupts data:	Copied to github as #: 11943
Description	
In attribute table of [[Spatialite]] layer all attributes shown as NULL values. For testing: <ul style="list-style-type: none">- create a [[Spatialite]] database- load data to it and open this layer in QGIS- then open attribute table of this layer I tested this on Windows XP Pro SP3 with QGIS 1.2.0 obtained from OSGEO4W installer (qgis-dev package, versions from 1.2.0-22 to 1.2.0-25). In QGIS 1.1 all works, attributes shown correctly. Sample database attached.
