

QGIS Application - Bug report #18876

Bad/malformed command string when launching TauDem script (2.18.17)

2018-04-29 12:02 PM - Oki Sir

Status: Closed	
Priority: Normal	
Assignee:	
Category: Processing/Core	
Affected QGIS version: 2.18.17	Regression?: No
Operating System: Windows	Easy fix?: No
Pull Request or Patch supplied: No	Resolution: duplicate
Crashes QGIS or corrupts data: No	Copied to github as #: 26708
Description	
<p>When i try to launch a TauDem script, the corresponding command string is malformed (i think that path parsing/escaping is wrong, because there is only a double quote at the end of the command string, see attachment).</p> <p>Instead if I try to launch the script from the command line, with correct parsing/escaping all works fine.</p> <p>Thanks in advance and sorry for possible bad category coiche</p>
