

QGIS Application - Bug report #18878

Unable to paste a layer in an empty project

2018-04-29 07:16 PM - Harrissou Santanna

Status: Open	
Priority: Normal	
Assignee:	
Category: Unknown	
Affected QGIS version: 3.1(master)	Regression?: No
Operating System:	Easy fix?: No
Pull Request or Patch supplied:	Resolution:
Crashes QGIS or corrupts data:	Copied to github as #: 26710
Description	
<p>Open a project, select a layer in the Layers panel, right-click and Copy layer</p> <p>Open a new instance of QGIS and go to Layer menu: the "Paste Layer/Group" action is grayed</p> <p>Add a layer to the empty project</p> <p>Go to Layer menu again: the command is now active and you can paste the layer you copied.</p>
