

QGIS Application - Bug report #18879

[Layers Properties] "Update extents" button does not work

2018-04-29 07:40 PM - Harrissou Santanna

Status:	Open	
Priority:	Normal	
Assignee:		
Category:	Unknown	
Affected QGIS version:	3.1(master)	Regression?: No
Operating System:		Easy fix?: No
Pull Request or Patch supplied:	No	Resolution:
Crashes QGIS or corrupts data:	No	Copied to github as #: 26711
Description		
<p>I have a postgresQL layer whose extent is wrong (zoom to layer command only shows partial data, however coherent with information in the layers properties --> information dialog)</p> <p>When i click the "Update extents" button in the Layers properties --> Source tab, i expect it to fix the issue but it does not: same extent (visually or checking the Info tab). I can't even tell if anything happens(if the click works): it would be nice to have some visual feedback that the command works.</p>
