QGIS Application - Bug report #18904 [Layer properties] Weird resizing of widgets in Attribute forms tab

2018-05-03 05:36 PM - Harrissou Santanna

Status: Open Priority: Normal

Assignee:

Category: Forms

Affected QGIS version:3.1(master)Regression?:NoOperating System:Easy fix?:No

Pull Request or Patch shapplied: Resolution:

Crashes QGIS or corrupts data: Copied to github as #: 26736

Description

When resizing the layer properties dialog or when its size is small and you switch to drag-and-drop designer mode in Attribute forms tab, you get that ugly screen where widgets are badly resized (i've seen that since 2.99 but forgot to report).
