QGIS Application - Bug report #18939
Graphic Modeler Crash on Exit After Saving

2018-05-12 12:00 AM - Philip Kampf

Status:	Closed			
Priority:	Normal			
Assignee:				
Category:	Processing/Modeller			
Affected QGIS version:	2.18.19	**Regression?:**	No	
Operating System:	OSX - 10.11.6	**Easy fix?:**	No	
Pull Request or Patch supplied:	No	**Resolution:**	not reproducable	
Crashes QGIS or corrupts data:	Yes	**Copied to github as #:**	26771	

Description

I am currently experiencing crashes upon exiting every time I use 'save' or 'save as' in the graphic modeler. If I adjust any parameters and save in an open model, it will exit the model, but will stall out there and I will have to force quit.

History

#1 - 2018-09-25 03:56 AM - Nyall Dawson

- Resolution set to not reproducable

- Status changed from Open to Closed

Not reproducible in 3.x, and the whole modeler has been re-written
