

QGIS Application - Bug report #18941

Can't edit GeoPackage using SQL through DBManager

2018-05-12 07:56 AM - James Passmore

Status:	Closed	
Priority:	Normal	
Assignee:		
Category:	DB Manager	
Affected QGIS version:	3.1(master)	Regression?: No
Operating System:	Linux	Easy fix?: No
Pull Request or Patch supplied:	No	Resolution: fixed/implemented
Crashes QGIS or corrupts data:	No	Copied to github as #: 26773
Description		
<p>At work, using QGIS 3.0.1 on Windows, I can edit a GeoPackage created by QGIS by running SQL in DBManager, great!</p> <p>However, at home using QGIS 3 master on Linux I can't.</p> <p>I get Python error:</p> <pre>2018-05-12T06:44:10 WARNING Traceback (most recent call last): File "/usr/share/qgis/python/plugins/db_manager/db_manager.py", line 195, in runSqlWindow query = DlgSqlWindow(self.iface, db, self) File "/usr/share/qgis/python/plugins/db_manager/dlg_sql_window.py", line 99, in init self.btnCancel.setShortcut(QKeySequence.Cancel) AttributeError: type object 'QKeySequence' has no attribute 'Cancel'</pre> <p>The GeoPackage was created in the Linux QGIS app, but when clicking on the SQL Window icon, I get the error above.</p>

Similar problem here, with QGIS 3.2 and Ubuntu 16.04 (xenial). When clicking on SQL Window icon, I get same error message :

```
File "/usr/share/qgis/python/plugins/db_manager/db_manager.py", line 195, in runSqlWindow
query = DlgSqlWindow(self.iface, db, self)
File "/usr/share/qgis/python/plugins/db_manager/dlg_sql_window.py", line 99, in init
self.btnCancel.setShortcut(QKeySequence.Cancel)
AttributeError: type object 'QKeySequence' has no attribute 'Cancel'
```

I'm also having this issue. QGis v3.2.0-Bonn on Ubuntu 16.04 (xenial).

Loaded a shapefile in QGis and opened DB Manager. I can see the layer info, table and preview. But when I click on SQL Window, I get the same error reported by julie:

```
2018-07-05T16:13:20 WARNING Traceback (most recent call last):
  File "/usr/share/qgis/python/plugins/db_manager/db_manager.py", line 195, in runSqlWindow
```

```
query = DlgSqlWindow(self.iface, db, self)
```

```
File "/usr/share/qgis/python/plugins/db_manager/dlg_sql_window.py", line 99, in __init__
```

```
self.btnCancel.setShortcut(QKeySequence.Cancel)
```

```
AttributeError: type object 'QKeySequence' has no attribute 'Cancel'
```
