

## QGIS Application - Bug report #1897

### SPIT: Schemas not owned by DB-role cannot be accessed

2009-08-26 06:49 AM - Bernhard Ströbl

<b>Status:</b> Closed	
<b>Priority:</b> Low	
<b>Assignee:</b> nobody -	
<b>Category:</b> GUI	
<b>Affected QGIS version:</b>	<b>Regression?:</b> No
<b>Operating System:</b> All	<b>Easy fix?:</b> No
<b>Pull Request or Patch supplied:</b>	<b>Resolution:</b> fixed
<b>Crashes QGIS or corrupts data:</b>	<b>Copied to github as #:</b> 11957
<b>Description</b>	
<p>When importing shapesfiles with SPIT the user may choose the schema to write the new relation to from a drop-down list. However this list contains only schemas <b>owned</b> by the logged-in database-role.</p> <p>If the schema is owned by a group role where the logged-in role is a member of it is not listed.</p> <p>If the logged-in user has create rights on the schema it is not listed either.</p> <p>To reproduce follow these steps:</p> <ol style="list-style-type: none"><li>1. create a schema as role A</li><li>2. grant create rights to this schema to role B</li><li>3. start SPIT and log in at the DB as role B</li><li>4. choose the shape file and see the combo box in column "schema"</li></ol> <p>Tested with 1.0.1 on [[WinXP]] and 1.1.0 on Linux (SUSE 11.1) so I reckon all platforms and versions are affected.</p>

Hi,

have you tested the postgis manager plugin?

I guess that SPIT is not being developed any more and that postgis manager is the new reference plugin for interacting with postgis.

**#2 - 2009-08-26 09:09 AM - Jürgen Fischer**

- *Resolution set to fixed*

- *Status changed from Open to Closed*

fixed in commit:f84685ce (SVN r11515)

**#3 - 2009-08-26 11:15 PM - Bernhard Ströbl**

@lutra: tested [[PostGIS]] Manager this morning, however my users prefer no-overhead plugins :)

@jef: Thanks for fixing!
