

QGIS Application - Feature request #18971

Change data source of a vector layer

2018-05-17 03:07 PM - c m

Status:	Open	Resolution: Copied to github as #: 26802
Priority:	Normal	
Assignee:		
Category:	Vectors	
Pull Request or Patch supplied:	No	
Easy fix?:	No	
Description		
<p>When you open the properties view of a vector layer, you can see a tab named "Source"</p> <p>but you cannot modify/edit the source of the layer's data to make the layer's view change/update accordingly</p> <p>That's too bad because when you open (for instance) a geojson feed coming from a web api, it would be really great to see the map's view change based on your changes inside the api's request (parameters)</p>
