

QGIS Application - Bug report #19012

[PyQGIS Doc] Make all syntaxes obvious when a method has more than one syntax

2018-05-23 02:40 PM - Harrissou Santanna

<b>Status:</b>	Closed	
<b>Priority:</b>	Normal	
<b>Assignee:</b>	Denis Rouzaud	
<b>Category:</b>	Documentation and Help	
<b>Affected QGIS version:</b>	3.1(master)	<b>Regression?:</b> No
<b>Operating System:</b>		<b>Easy fix?:</b> No
<b>Pull Request or Patch supplied:</b>		<b>Resolution:</b> up/downstream
<b>Crashes QGIS or corrupts data:</b>		<b>Copied to github as #:</b> 26843
<b>Description</b>		
<p>Go to <a href="https://qgis.org/pyqgis/master/core/Layout/QgsLayoutExporter.html#qgis.core.QgsLayoutExporter.exportToPdf">https://qgis.org/pyqgis/master/core/Layout/QgsLayoutExporter.html#qgis.core.QgsLayoutExporter.exportToPdf</a></p> <p>The exportToPdf has more than one way to call it but only the one in the grayed area (next to the name) is obvious, and when looking for a function you may miss the other alternative. This is also true for exportToImage, exportToSVG, print... (at least in this class).</p> <p>Moreover, the paragraph showing the second alternative does not look sexy to read and you want to skip it (I unfortunately did it (!) for hours until I find in the github repo what I was looking for, which is not the way we want people to proceed.).</p>		

History

#1 - 2018-05-24 09:04 AM - Nyal Dawson

- Assignee changed from Yves Jacolin to Denis Rouzaud

#2 - 2018-05-24 02:07 PM - Denis Rouzaud

moved to proper tracker <https://github.com/qgis/pyqgis/issues/18>

#3 - 2018-06-08 01:42 PM - Denis Rouzaud

- Resolution set to up/downstream

- Status changed from Open to Closed
