# QGIS Application - Bug report #19016

## Limits in labels for raster symbology in discrete interpolation method are not shown

2018-05-24 05:56 AM - Mario Reyes

Status: Open Priority: High

Assignee:

Category: Symbology

Affected QGIS version: 3.6.0 Regression?: Yes
Operating System: Easy fix?: No

Pull Request or Patch supplied: Resolution:

Crashes QGIS or corrupts data: Copied to github as #: 26847

## **Description**

In QGIS 2.18, when the discrete interpolation method was selected for a raster, the labels used to show the lower and the upper limits. This is not the case with QGIS 3.03

## History

## #1 - 2019-03-08 08:34 PM - Alister Hood

- Regression? changed from No to Yes

#### #2 - 2019-03-09 09:27 AM - Giovanni Manghi

- Affected QGIS version changed from 3.0.3 to 3.6.0
- Priority changed from Normal to High
