fixed in commit:ddd64be8 (SVN r11572)

#2 - 2009-09-29 10:18 AM - Giovanni Manghi

- Resolution deleted (fixed)
- Status changed from Closed to Feedback

I have to reopen this after having done the same for #1864.

Add a GRASS layer, uncheck "save relative paths" and save the project.

When you try to open it, qgis crashes:

```
access: No such file or directory
terminate called after throwing an instance of 'QgsGrass::Exception'
  what(): LOCATION << home/qgis_sample_data/grassdata/alaska/demo/airports/airports >> not available
Aborted
```
