

QGIS Application - Bug report #19141

[CAD] The "move features" origin point should not require to click on the blocked (x,y) point

2018-06-07 04:10 PM - Harrissou Santanna

Status: Closed	
Priority: Normal	
Assignee: Denis Rouzaud	
Category: Digitising	
Affected QGIS version: 3.1(master)	Regression?: No
Operating System:	Easy fix?: No
Pull Request or Patch supplied:	Resolution:
Crashes QGIS or corrupts data:	Copied to github as #: 26971
Description	
<p>When moving a feature thanks to the CAD panel, you need to click on the point you blocked with x,y coordinates to have it used as displacement origin. Clicking anywhere in the canvas should be enough.</p> <p>See discussion at https://github.com/qgis/QGIS-Documentation/issues/1289</p>
