

QGIS Application - Bug report #19144

Coordinate grid in print composer QGIS

2018-06-07 10:22 PM - Сергей Пикалов

Status:	Closed	
Priority:	High	
Assignee:		
Category:	Map Composer/Printing	
Affected QGIS version:	2.18.19	Regression?: No
Operating System:	Windows 10	Easy fix?: No
Pull Request or Patch supplied:	No	Resolution: no timely feedback
Crashes QGIS or corrupts data:	No	Copied to github as #: 26974
Description		
<p>Good afternoon, there is a problem when creating a grid on the format A0, step 1 mm. scale of 500</p> <p>For some reason, it is not created for the whole map only part from x horizontal lines, y vertical and the place where they intersect (link to the map-scheme https://1drv.ms/b/s!AjcCzDPWJBODoHxNL_XlvIVw_jVy)</p> <p>Formerly created with a scale of 1000, everything was normal (example: https://1drv.ms/b/s!AjcCzDPWJBODoH3Gj5UrWITzBiDH)</p> <p>If you include a grid spacing of 2 mm or more, all approx.</p> <p>Coordinate system WGS 84 UTM 37N</p> <p>Who knows what the problem is and how to solve it?</p> <p>Thank you in advance!</p>		

History

#1 - 2019-01-21 12:35 AM - Jürgen Fischer

- Status changed from Open to Feedback

Please test with QGIS 3.4 - QGIS 2.18 reached it's end of life.

#2 - 2019-01-22 11:37 AM - Alexander Bruy

- Category changed from Processing/QGIS to Map Composer/Printing

#3 - 2019-03-08 10:50 AM - Giovanni Manghi

- Resolution set to no timely feedback

- Status changed from Feedback to Closed

Closing for lack of feedback.
