

# QGIS Application - Bug report #1919

## Plugin installer (version 1.0.1) fails to load

2009-09-03 09:46 AM - iknowjoseph -

<b>Status:</b> Closed	
<b>Priority:</b> Low	
<b>Assignee:</b> Borys Jurgiel	
<b>Category:</b> Python plugins	
<b>Affected QGIS version:</b>	<b>Regression?:</b> No
<b>Operating System:</b> Debian	<b>Easy fix?:</b> No
<b>Pull Request or Patch supplied:</b>	<b>Resolution:</b> wontfix
<b>Crashes QGIS or corrupts data:</b>	<b>Copied to github as #:</b> 11979
<b>Description</b>	
Installed as per: <a href="https://trac.osgeo.org/qgis/ticket/1918">https://trac.osgeo.org/qgis/ticket/1918</a>	
Selecting / deselecting the plugin installer from the plugin manager dialogue has no effect, although from the command line I can see:	
joseph@joseph-work:~\$ qgis	
Python support ENABLED :-)	
Loaded : Plugin Installer (package: plugin_installer)	
Loaded : Plugin Installer (package: plugin_installer)	
The plugin is never displayed in the menu, however.	

### History

#### #1 - 2009-09-03 09:51 AM - Giovanni Manghi

If you have any ~/.qgis directory from a previous installation of qgis, try remove it.

#### #2 - 2009-09-03 09:54 AM - iknowjoseph -

Have removed ~/.qgis and now Plugin Installer is no longer available as an option within the Manage Plugins dialogue.

#### #3 - 2009-09-03 09:59 AM - Giovanni Manghi

You have probably have issues with python, missing one or more libraries. python-qgis maybe?

#### #4 - 2009-09-03 10:05 AM - iknowjoseph -

Thanks, apt-get install'ing that helped (see below for output)

Is python-qgis not an explicit dependency? Should it not have been installed as part of my original installation?

Thanks again, Joseph

```
joseph@joseph-work:~$ sudo apt-get install python-qgis
Reading package lists... Done
Building dependency tree
```

Reading state information... Done

The following packages were automatically installed and are no longer required:

libqgis1.0.2

Use 'apt-get autoremove' to remove them.

The following extra packages will be installed:

python-qgis-common

The following packages will be upgraded:

python-qgis python-qgis-common

2 upgraded, 0 newly installed, 0 to remove and 1 not upgraded.

#### #5 - 2009-09-03 10:10 AM - Borys Jurgiel

So does it work now and can you close the ticket? I hope the old libraries were the only reason. If not, very strange that the Installer has disappeared from the list after removing the .qgis directory - it should be present in a /usr/share/qgis/python/plugins/plugin\_installer directory.

#### #6 - 2009-09-03 10:14 AM - Giovanni Manghi

- Resolution set to wontfix

- Status changed from Open to Closed
