QGIS Application - Bug report #19218
[Processing] if dlg.wasExecuted() error

2018-06-18 07:01 PM - Harrissou Santanna

Status:	Closed			
Priority:	Normal			
Assignee:				
Category:	Processing/GUI			
Affected QGIS version:	3.1(master)	**Regression?:**	No	
Operating System:		**Easy fix?:**	No	
Pull Request or Patch supplied:		**Resolution:**		
Crashes QGIS or corrupts data:		**Copied to github as #:**	27047	

Description

I can't tell what particularly triggers this issue but when I open many processing dialogs and then close them, I get the attached error message.
Just annoying...

Got an example?

#2 - 2018-06-20 06:13 PM - Harrissou Santanna

- Status changed from Feedback to Open

Trying several combinations, I'm sure it has not to do with a particular algorithm.

But i think it has to do with my platform (windows 10) and how I close the algs dialog:

place the cursor over QGIS icon on the Windows status bar and using the dialogs preview, close them one by one.

When the last alg dialog is closed, I get the Python error shown above.

It does not occur if only one alg was opened.

#3 - 2018-07-04 06:36 PM - Nyall Dawson

- % Done changed from 0 to 100

- Status changed from Open to Closed

Applied in changeset commit:qgis|6c014b46babf8f22bcd0208fbd6043ddbfd6d0da.
