

QGIS Application - Bug report #19232

Map Offset

2018-06-21 11:51 AM - Mitchell Menezes

Status: Closed	
Priority: Normal	
Assignee:	
Category: Map Canvas	
Affected QGIS version: 2.18.15	Regression?: No
Operating System:	Easy fix?: No
Pull Request or Patch supplied:	Resolution: not reproducible
Crashes QGIS or corrupts data:	Copied to github as #: 27060

Description

Good day,

We are creating network designs using Qgis 2.18, the designing is perfect and we have no issues there. Once we re-open the workspace the map is offset by millimeters and this through's our designs completely out.

How do we fix this without redoing the entire design?

Is there any possible way of realigning the map and the design?

Regards,
Mitch.
