

QGIS Application - Bug report #19242

Plugins not working on QGIS v3.0.3

2018-06-22 07:20 AM - Sirisha Penigonda

Status: Closed	
Priority: Normal	
Assignee: Borys Jurgiel	
Category: Plugin Manager	
Affected QGIS version: 3.0.3	Regression?: No
Operating System:	Easy fix?: No
Pull Request or Patch supplied:	Resolution: invalid
Crashes QGIS or corrupts data:	Copied to github as #: 27070
Description	
<p>I have downloaded and installed the latest version of QGIS v3.0.3 but the plugins,</p> <ol style="list-style-type: none">1.Crayfish2.Profiletool3.Tuflow <p>are not working on the latest version. I just checked the QGIS plugin page for updated plugins but was not able to find any compatible versions.</p> <p>Are there any compatible versions of plugin available. If yes, Kindly let me know where i can find the plugins.</p> <p>Thank you.</p>

- Status changed from Open to Feedback

AFAIK, Crayfish for QGIS 3.x is not released yet. For more information, please contact its authors: <https://www.lutraconsulting.co.uk>

The two other plugins you should find in the Plugin manager:

1. Profile tool 4.1.1
2. TUFLOW 2.1

#2 - 2018-06-22 12:19 PM - Martin Dobias

- Resolution set to invalid

- Status changed from Feedback to Closed

Closing this ticket as it is not a QGIS bug - the plugins are made by third parties.

Crayfish for QGIS 3 is in the works, it will be most likely available with QGIS 3.4.
