The schema at

<https://wfs.geonorge.no/skwms1/wfs.stedsnavn50?service=WFS&version=2.0.0&request=DescribeFeatureType&TYPENAME=app:Sted>

includes <http://skjema.geonorge.no/SOSI/produktspesifikasjon/Stedsnavn/5.0/Stedsnavn-5.0.xsd>

which is a complex feature schema

And the document at

<https://wfs.geonorge.no/skwms1/wfs.stedsnavn50?service=WFS&version=2.0.0&request=GetFeature&TYPENAME=app:Sted&COUNT=1>

=1

also shows that this is complex features

The WFS client isn't ready for that
