

QGIS Application - Bug report #19292

Text annotation boxes too small in print or pdf

2018-06-28 09:42 AM - Morten Storm

Status: Closed	
Priority: High	
Assignee:	
Category: Map Composer/Printing	
Affected QGIS version: 3.2	Regression?: Yes
Operating System:	Easy fix?: No
Pull Request or Patch supplied:	Resolution: duplicate
Crashes QGIS or corrupts data:	Copied to github as #: 27120
Description	
When printing or creating PDFs with a map layout containing a text annotation box, the text annotation is printed way smaller than on screen.	
This does not happen in QGIS 2.18. Attached are two PDFs created from the same project in 2.18 and 3.2 respectively.	

History

#1 - 2018-08-23 05:48 PM - Dmitry Kravchok

- File annotations.jpg added

I confirm that.

QGIS version

3.2.2-Bonn

QGIS code revision

26842169e9

Linux and Windows same thing.

#2 - 2018-08-23 06:12 PM - Giovanni Manghi

- Regression? changed from No to Yes

- Operating System deleted (Windows 7)

- Priority changed from Normal to High

#3 - 2018-08-31 11:50 AM - Morten Storm

An additional observation:

If you change the blending mode of your map item (under Item Properties > Rendering) from 'Normal' to 'Darken' or 'Multiply', text annotation boxes are printed with the right size! :-)

#4 - 2018-09-24 01:46 AM - Nyall Dawson

- Status changed from Open to Closed

- Resolution set to duplicate
