QGIS Application - Bug report #19337
zooms in and out continually after loading PostGIS layer, forcing reloads and re-renders

2018-07-04 08:15 PM - Gavin Fleming

Status:	Closed			
Priority:	Normal			
Assignee:				
Category:	Map Canvas			
Affected QGIS version:	3.2	**Regression?:**	Yes	
Operating System:	Ubuntu 16.04	**Easy fix?:**	No	
Pull Request or Patch supplied:	No	**Resolution:**	no timely feedback	
Crashes QGIS or corrupts data:	No	**Copied to github as #:**	27165	

Description

I opened a (2.18) project with some (remote) postGIS layers for the first time in 3.2 and noticed it continually doing a little zoom-in zoom-out forcing reloading and re-rendering. Toggle the layers off and it stops. A raster vrt layer and shapefile layers in the same project behave normally.
