

QGIS Application - Bug report #19363

Can't lock the map scale in canvas

2018-07-09 04:59 PM - d quintao

<b>Status:</b>	Open	
<b>Priority:</b>	Normal	
<b>Assignee:</b>		
<b>Category:</b>	Map Canvas	
<b>Affected QGIS version:</b>	3.2	<b>Regression?:</b> No
<b>Operating System:</b>	Debian 64bit	<b>Easy fix?:</b> No
<b>Pull Request or Patch supplied:</b>	No	<b>Resolution:</b>
<b>Crashes QGIS or corrupts data:</b>	No	<b>Copied to github as #:</b> 27191
<b>Description</b>		
<p>When I stretch the right side style panel across screen to enlarge it the map shrinks down in scale. I want the scale to be fixed because I set it to the same scale as the Layout window map scale.</p>

i guess you mean it changes the scale although you have locked the scale, right?

i would also expect that the scale is locked in this case when resizing the canvas. it should either change the canvas extend or change the magnification when resizing.

if this is expected behavior at least an option to further lock down the scale is needed i guess.
