

QGIS Application - Bug report #19381

[Digitizing] Some digitizing tools do not use the rubberband color to preview new geometry

2018-07-10 01:40 PM - Harrissou Santanna

Status:	Closed	
Priority:	Normal	
Assignee:		
Category:	Digitising	
Affected QGIS version:	3.3(master)	Regression?: No
Operating System:		Easy fix?: No
Pull Request or Patch supplied:	No	Resolution:
Crashes QGIS or corrupts data:	No	Copied to github as #: 27209
Description		
<p>Advanced digitizing Tools like Rotate, Move, Copy and Move, Simplify (for those I tested) do not use the rubberband color set in Settings --> Options. They seem to follow a hard-coded red transparent color instead.</p> <p>I think the Shape Digitizing tools neither use the rubberband color when drawing new features.</p>
