

QGIS Application - Feature request #19393

Double click shows selected feature informations

2018-07-11 05:27 PM - Maxime RIOU

Status:	Open	Resolution: Copied to github as #: 27221
Priority:	Normal	
Assignee:		
Category:	Digitising	
Pull Request or Patch supplied:		
Easy fix?:	Yes	
Description		
<p>What do you think about using a double click with the left button to show the feature information of an object selected in QGIS?</p> <p>In case of multiple feature selected,the double-click could suggest merging the information of the selected feature.</p>
