

QGIS Application - Bug report #19411

QGIS Server layers (WMS) do not render above zoom level 20 in leaflet or open layers

2018-07-13 11:39 AM - Admire Nyakudya

Status:	Closed	
Priority:	Normal	
Assignee:		
Category:	Web Services clients/WMS	
Affected QGIS version:	2.18.17	Regression?: Yes
Operating System:	Ubuntu 18.04	Easy fix?: No
Pull Request or Patch supplied:	No	Resolution: duplicate
Crashes QGIS or corrupts data:	No	Copied to github as #: 27239
Description I have setup QGIS server to render map services and the WMS layers are rendered in leaflet or OpenLayers and beyond zoom level 19 nothing renders. I have set up the QGIS project with layers coming from a PostgreSQL database and also a shapefile. There are no rendering rules set-up for the layers and the QGIS projects.
