- Resolution set to wontfix
- Status changed from Open to Closed

use the "select plus" plugin

#2 - 2009-09-23 11:02 PM - bjpei -

Maybe it would be better to have the [[PlugIn]] Functions in the QGIS Core?

I think lots of users don't know much about all the [[PlugIns]].

They look into Qgis see its not possible and are dissapointed.

So please think about integrating the functions in the core.

By the way the bug is duplicated to #1155.

Oh thanks for the plugin hint. But yes very strange that these features are not in core, or at least bundled with the app.
