<b>Operating System:</b> linux ubuntu 16.04	<b>Easy fix?:</b> No
<b>Pull Request or Patch supplied:</b>	<b>Resolution:</b> invalid
<b>Crashes QGIS or corrupts data:</b>	<b>Copied to github as #:</b> 27462

### Description

I am trying to added labels to contours. I wanted to remove the part of the contour under the label, so I followed the instructions here: [[<https://gis.stackexchange.com/questions/52858/how-to-interrupt-contour-lines-beneath-elevation-labels-instead-of-using-label>]]

The instructions work, except it seems that rendering the sections transparent is dependent on the contour "level" field. Only contours with levels in [-5, -8] have transparent sections underneath the labels, the rest just have the regular line.
