QGIS Application - Bug report #19686
[Processing] Field calculator algorithm does not use the selected layer as default layer input

2018-08-24 03:36 PM - Harrissou Santanna

Status: Closed
Priority: Normal
Assignee: Alexander Bruy
Category: Processing/Core
Affected QGIS version: 3.3 (master)
Operating System:
Pull Request or Patch supplied: Yes
Crashes QGIS or corrupts data:

Regression?: No
Easy fix?: No
Resolution: fixed/implemented
Copied to github as #: 27511

Description

Unlike the other algorithms that use the selected layer as active value of their drop-down input layer parameter, the Field calculator algorithm seems to use another layer (maybe the first loaded?)
