Pull Request or Patch supplied:	No	**Resolution:**	
Easy fix?:	Yes	**Copied to github as #:**	27543

Description

The 'Add Delimited Text Layer' button is the only one which does not have a keyboard shortcut, and that is the one Which I use the Most. We should add a Keyboard shortcut for this as well

Devdatta, while an official shortcut can be set, you can meanwhile add your own shortcut in the Settings --> Keyboard shortcuts menu.
