

QGIS Application - Bug report #1972

Font size for labels is limited to 99

2009-10-03 03:31 AM - vince -

Status:	Closed	
Priority:	Low	
Assignee:	nobody -	
Category:	Symbology	
Affected QGIS version:		Regression?: No
Operating System:	OS X	Easy fix?: No
Pull Request or Patch supplied:		Resolution: duplicate
Crashes QGIS or corrupts data:		Copied to github as #: 12032
Description		
<p>I cannot set the size of labels to more than 99 units. While it seems crazy to print labels of 1000 font point size, in map units this makes sense: I have a map of France whose units are meters, so labels set to 99 meters are totally invisible when the map is being viewed wholly, which is a bummer.</p>		

History

#1 - 2009-10-07 02:13 PM - Giovanni Manghi

I would say that this bug is the same of #1942, just on the other end.

If you agree I will close this as duplicate and reformulate the title/description of # 1942

#2 - 2009-10-08 08:49 AM - Giovanni Manghi

- Resolution set to duplicate
- Status changed from Open to Closed
