- Status changed from Open to Feedback

Is this with a clean profile?

#2 - 2018-09-01 05:21 AM - Andrea Giudiceandrea

Yes, it crashes upon closing with a new profile and also after deleting AppData\QGIS\QGIS3.

#3 - 2018-09-01 04:25 PM - Andreas Neumann

Same for me on Linux (self compiled)

I get a message "Corrupted double link list" in the console on closing and then a crash dump.

I haven't yet tested with deleting profiles and/or plugins
