Pull Request or Patch supplied:	Yes		**Resolution:**	invalid
Easy fix?:	No		**Copied to github as #:**	27582

Description

QGIS 2.18 has a very good and needed plugin **ChangeDataSource** ([[https://plugins.qgis.org/plugins/changeDataSource/]]). This plugin is not converted for QGIS 3.x.

Could you include the plugin in QGIS core? It is very very useful plugin.

There is Pull Request on its GitHub page: [[https://github.com/enricofer/changeDataSource/pulls]]

Thanks.

- Resolution set to invalid

- Status changed from Open to Rejected

This is up to the plugins author, the QGIS project has no influence here

The author is not going to update the plugin, I'm saying that let's make the plugin an integral part of QGIS, to add it in core as a function.
