| <b>Description</b>  |                                     |
| Tested on qgis trunk on Debian and Ubuntu.  |                                     |
| Open the print composer, choose A0 as paper size, compse the map and then export to pdf. The result seems to be a A4 sized pdf. |                                     |
