Affected QGIS version: 2.18.16	Regression?: No
Operating System: Windows 7 Pro	Easy fix?: No
Pull Request or Patch supplied: No	Resolution: invalid
Crashes QGIS or corrupts data: No	Copied to github as #: 27663

Description

Hi

i was working on a print composition. Default page setting is A4 landscape. I changed it into A4 portrait, but nothing happend. I could work with landscape if necessary, but would prefer portrait.

Can you tell me, why the change doesn't work and how I can fix that?

Thank you!
