Description

The SAGA libs in /Applications/QGIS3_3_2_2-1.app/Contents/MacOS/lib/saga/ do not include VIGRA support, e.g.,

libimagery_vigra.dylib

Consequently SAGA > Image analysis > Edge detection (vigra) fails with "Error: select a library" message.

I suspect the same is true of the other SAGA > Image analysis > xxx (vigra) tools such as Fourier filter (vigra), Fourier transform (vigra), etc.

Is a compatible (SAGA 2.3.1) version of libimagery_vigra.dylib available which can be installed?

Also missing is libimagery_opencv.dylib

- Category changed from Processing/SAGA to Build/Install

Looks like packaging issue, not Processing bug.
