Pull Request or Patch supplied:	Resolution:
Easy fix?: No	Copied to github as #: 27737
Description	
<p>In atlas definition, It is currently possible to set sevral map parameters throught attributes of the layer used as atlas definition. All paramters of grid of the map are fixed and can not be based on attributes of the atlas layer. This would great to be able to change thoses values in the same way we can change the scale</p>
