

# QGIS Application - Bug report #19986

## Obsolete VC redistrib version installed

2018-10-01 10:33 AM - Yogurt Yogurt

<b>Status:</b> Open	
<b>Priority:</b> Low	
<b>Assignee:</b>	
<b>Category:</b> Build/Install	
<b>Affected QGIS version:</b> 3.3(master)	<b>Regression?:</b> No
<b>Operating System:</b> Windows	<b>Easy fix?:</b> Yes
<b>Pull Request or Patch supplied:</b> No	<b>Resolution:</b>
<b>Crashes QGIS or corrupts data:</b> No	<b>Copied to github as #:</b> 27808
<b>Description</b>	
<p>Qgis keeps on installing VC redistributable version 9.0.30729.17, regardless whether a newer version of VC++ 2008 (9.0) is already installed on the machine, like 9.0.30729.6161.</p>	
<p>To do:</p> <ol style="list-style-type: none"><li>1. Update vc_redist in the installer packed to the latest one.</li><li>2. Make the installer check if a newer version is already installed.</li><li>3. Is Qgis still really built on VC2008, in 2018??? (Yeah, that's a separate issue.)</li></ol>
