@Nyall, is it a very recent fix? Because I just get it (using commit:"c94eefb6df" - a less than a day commit). See attached screenshot (playing with symmetric classification, I got that).

I cannot reproduce it on W7 64 bit with 3.3.0-100 at the same code revision c94eefb6df: maybe due to different Qt version (mine is 5.11.2)?
