QGIS Application - Bug report #2004
v.in.ogr.all does not have a directory browser button

2009-10-12 10:09 AM - Paolo Cavallini

Status:	Closed			
Priority:	Low			
Assignee:	Lorenzo Masini			
Category:	GRASS			
Affected QGIS version:			**Regression?:**	No
Operating System:	All		**Easy fix?:**	No
Pull Request or Patch supplied:			**Resolution:**	fixed
Crashes QGIS or corrupts data:			**Copied to github as #:**	12064

Description

The GRASS module v.in.ogr.all is useful to convert a bunch of files in the same directory. It would be much more useful if one could select folders with a file browser button, instead of having to type all the path by hand

History

#1 - 2009-11-30 12:03 PM - Giovanni Manghi

patch attached.

By the way, when pointing to a folder containing shapes with overlapping polygons, v.in.ogr is bugged
