

QGIS Application - Bug report #20070

In rule based renderer, "Show feature count" returns 0 if no symbol is activated

2018-10-10 03:45 PM - Harrissou Santanna

Status:	Open	
Priority:	High	
Assignee:		
Category:	Symbology	
Affected QGIS version:	3.3(master)	Regression?: No
Operating System:		Easy fix?: No
Pull Request or Patch supplied:	No	Resolution:
Crashes QGIS or corrupts data:	No	Copied to github as #: 27892
Description		
<p>In rule based renderer, "show features count" does not return the count for any rule that has its symbol disabled. See screenshots.</p> <p>Set the issue as high because it makes the feature unreliable. The count returned by the rule should not rely on whether a symbol is configured for the feature.</p>
