QGIS Application - Bug report #20081
Problem with legend for multi-style and themes in Report

2018-10-11 09:29 PM - Saber Razmjooei

Status:	Closed			
Priority:	High			
Assignee:				
Category:	Map Composer/Printing			
Affected QGIS version:	3.3(master)	**Regression?:**	No	
Operating System:		**Easy fix?:**	No	
Pull Request or Patch supplied:	No	**Resolution:**	duplicate	
Crashes QGIS or corrupts data:	No	**Copied to github as #:**	27903	

Description

The legend generated in the Report, is based on the default style of the layer style.

My use case is as:

1- Added a layer

2- Added a new style

3- Created a theme for the new style

3.5 Switch back to the default style

4- Added a new report

5- Added a new map to follow the map theme

6- Added a legend for my map

7- The legend still refers to my default style

The correct behaviour should be that the legend follows the layer style from the theme set for the Map layout in the Report, unless user select the option for Auto update is disabled under legend item.
