

QGIS Application - Bug report #20116 can not reduce the size of the data entry form

2018-10-15 08:54 PM - Roberto Montagnetti

Status:	Closed	
Priority:	Normal	
Assignee:		
Category:	Forms	
Affected QGIS version:	3.0.0	Regression?: No
Operating System:	Windows	Easy fix?: No
Pull Request or Patch supplied:	No	Resolution: no timely feedback
Crashes QGIS or corrupts data:	No	Copied to github as #: 27938
Description		
<p>Hi everyone.</p> <p>I created a data entry form. However, the size of the mask is too large. If I move the mouse cursor to the end and pull it down (as it usually works) nothing happens and it becomes impossible to use the custom mask that I created.</p> <p>I have encountered this problem both in the onna and Bonn versions Girona and Bonn.</p> <p>I hope someone can help me.</p> <p>Thanks</p>
