Pull Request or Patch supplied:	No	Resolution: fixed/implemented
Crashes QGIS or corrupts data:	No	Copied to github as #: 27960
Description		
<p>Hi all,</p> <p>Using the new vertex editor I often find it difficult to locate the vertex in map canvas.</p> <p>So I think to propose as follows:</p> <ul style="list-style-type: none">- It is it possible to make 'vertex panel' able to delete vertex?- If it is possible this would work both for a vertex at a time as for a series of vertices selected directly in the vertex panel <p>Thanks for your attention</p> <p>Antonio</p>

#1 - 2018-10-17 09:42 PM - Saber Razmjooei

- Tracker changed from Feature request to Bug report
- Subject changed from feature request: Please make vertex panel to be able to delete a vertex in QGIS 3 to Please make vertex panel to be able to delete a vertex in QGIS 3
- Affected QGIS version set to 3.3(master)
- Crashes QGIS or corrupts data set to No
- Regression? set to Yes

I mark this a bug, because in QGIS 2.18 it was possible to remove a vertex from panel.

Works here nicely in commit:5e6eef3, using "DEL" key.

Can you confirm and if necessary show a screencast of the context in which you fail to make it work?

I confirm that issues appear on polygon about 520000 (FID=35) vertex in (in windows 7 in i7 4th gen. And 32GB ram) in this case when I try to delete the vertex QGIS Master it freezes on the 5th vertex for about 5 minutes...

I'll attach the file and the screencast

in screencast:

when a vertex are selected (Hilighted) I hit a lot of times del but the vertex remain in panel while QGIS freezes

regards

Sorry Ragis,

I think this commit is not related to this topic.

I talk about editing vertex not about print layout

I think he meant just to point that he tested with a master version that contained that commit as latest merged PR.

ah ok,

sorry for misunderstanding,

but the issues in screencast appear also in 0de984d7f9 that is today release

regards

I cannot find this commit so I cannot say if is more recent that the one pointed by Regis. Please try with 3.4.

#12 - 2018-11-15 08:41 AM - Bernhard Ströbl

works for me in QGIS 3.4.1 on Ubuntu 16.04 (64 bit)

#13 - 2018-12-28 11:27 AM - Paolo Cavallini

I suggest closing this then.
