Pull Request or Patch supplied:		**Resolution:**	
Easy fix?:	No	**Copied to github as #:**	27962

Description

Create the ability to manually curve and otherwise place and manipulate individual labels (aka "annotation" in Esri-speak). Be able to produce (for example) a map similar to the attached image.

History

#1 - 2018-10-17 06:45 PM - Harrissou Santanna

I don't know about "manually curving" but you can place and manipulate individual labels in QGIS (for a long time now - see the labels toolbar enhanced by auxiliary storage in v3)

Ps: the docs might still need some lifting
