

QGIS Application - Feature request #20159

Singlepart to Multipart

2018-10-18 04:11 PM - Sara Lena Kordasch

Status:	Closed	Resolution: invalid Copied to github as #: 27980
Priority:	High	
Assignee:		
Category:	Vectors	
Pull Request or Patch supplied:	No	
Easy fix?:	No	
Description		
In QGIS 2.18 not only the Tool Multipart to Singlepart but also the tool Singlepart to Multipart were available. Unfortunately this tool (Single to Multi) is not available since QGIS 3.xx. Maybe it can be refeatured in the new QGIS versions again.		

History

- Status changed from Open to Feedback

It's there; it has been renamed into "Collect geometries" (or "Promote to multipart" ? I'm never sure).

#2 - 2018-10-18 05:36 PM - Giovanni Manghi

- Resolution set to invalid

- Status changed from Feedback to Closed

is called "promote to multipart"

is called "promote to multipart"

The feature "promote to multipart" does not include the option to use a 'unique ID field'. So it is not really the same functionality. The "singlepart to multipart" is now "collect geometries" as mentioned above.
