QGIS Application - Feature request #20167
[Processing] In batch mode, the "Remove row" button does not remove the selected row but the one at the bottom of the table

Easy fix?:	No	**Copied to github as #:**	27988

Description

Open an algorithm dialog

switch to batch mode

add a bunch of files from system

Try to delete one file in the middle: I'm not really sure how selection proceeds but i click at the left of the row, got some widget in blue (assumed it was selected) and press the minus button.

The removed line is actually the one at the bottom of the list, not the "selected" or "active" one.

This makes the tool hard to work with.

History

#1 - 2019-01-01 02:30 PM - Alexander Bruy

- Priority changed from High to Normal

- Tracker changed from Bug report to Feature request

IMHO this is not a bug, as it always worked this way. Maybe it is a bad UX decision, but not bug.
