<b>Description</b>	
<p>Hi all,</p> <p>I often use the "Multipart to single parts" plugin developed by Alexandre Neto.</p> <p>I think this is very useful tool that enable users to split multipart feature to single parts one.</p> <p>Well I ask to developpers to merge this plugin as QGIS core editing tools.</p> <p>Thanks in advance</p> <p>Antonio</p>
